

# BASCA CLEANING MACHINE

*Suitable for:*

The best solution for cleaning IBC's (plastic or metallic) and mixing tanks. Developed with a modular design, Basca washing machine can be configured to your specific needs, and even upgrade if your production grows or changes over time. Basca washing machine can be configured to clean multiple products with solvent, water, or both cleaning media through a high-pressure jet or brushes.

## Benefits:

- *3 minute average cleaning time*
- *80% Less waste disposal*
- *75% Workforce reduction*
- *Improve safety and quality*
- *Modular design*
- *Easy to install*
- *Compact Layout*
- *Cost efficient*

## BASCA

Cleaning equipment for tanks and containers

# BASCA BASCA WASHING MACHINE

## WATER

- Size (LxWxH): 3000x2000x2500mm
- Electric Supply: 3x400V - 50Hz (different on request)
- Power: 5.5KW up to 40KW
- Electrical insulation: IP55
- Air Supply: 7 Bar
- Cycle Process: Programmable via Touch Screen
- Washing Pressure: 6 Bar up to 500 Bar
- Media max temp: 80°C
- Filtering System: N°2 Bag filters with s/steel case
- PLC controlled cycle with intuitive HMI
- Complete with 2006/42/EC requested safety devices
- Average Media Consumption: 15 to 25 Lt/cycle

## ENVIRO-FRIENDLY MEDIA & SOLVENT

- Size (LxWxH): 3000x2000x2500mm
- Electric Supply: 3x400V - 50Hz (different on request)
- Power: 0.75KW up to 25KW
- Electrical insulation: IP55
- Air Supply: 7 Bar
- Cycle Process: Programmable
- Washing Pressure: 6bar up to 40bar
- Media max temp: 70°C
- Filtering System: N°2 Bag filters with s/steel case
- PLC controlled cycle with intuitive HMI
- Complete with CE 2006/42/CE requested safety devices
- EX-proof version available
- Average Media Consumption: 3 to 5 Lt/cycle
